Further, Contractor shall have no claim to any sums derived from the exploitation of any of the secondary rights in or to the Work. Contractor further acknowledges that Contractor's compensation payable hereunder shall not be a lien or claim against the Work or the Proceeds or an assignment or transfer of the Work or any part thereof or of any interest therein. Contractor shall provide Hastings with substantiation for all invoices in a form and degree of detail as requested by Hastings.

ARTICLE 7 - OVERPAYMENT/OFFSET

If Hastings makes any overpayment to Contractor for any reason or if Contractor is indebted to Hastings for any reason, Contractor shall pay Hastings for such overpayment or indebtedness on demand, or at Hastings' election, Hastings may deduct and retain for Hastings' own account an amount equal to all or any part of such overpayment or indebtedness from any sums that may be due or become due or payable by Hastings to Contractor, and such deduction or retention shall not be construed as a breach by Hastings; provided, however, that Hastings shall provide Contractor written notice prior to making any such deductions.

ARTICLE 8 – TAX WITHHOLDING

Contractor shall be solely responsible for withholding and payment of all taxes and contributions for unemployment insurance and employee benefits which may now or hereafter be imposed by the United States, state, or local tax authorities on Contractor or otherwise for the Work; shall comply with all federal and state or local laws on such subjects and all rules and regulations promulgated thereunder, and shall maintain suitable forms, books and records and hold Hastings harmless from the payment of any and all such taxes and contributions or penalties; and shall pay such taxes, excise, assessments or other charges levied by any governmental authority on or because of the services, work, or any equipment, supplies or materials used in the performance or transfer.

Hastings and Contractor agree that if the Work is not completed within the Contract Time, damages to

Hastings would be extremely difficult or impracticable to determine and that the aforesaid amount is a reasonable estimate of and a reasonable sum for such damages.

Hastings may deduct any liquidated damages from any amounts otherwise due to Contractor under the Contract Documents. This provision shall not limit any right or remedy of Hastings in the event of any other default of Contractor other than failing to complete the Work within the Contract Time. This provision shall not be applicable nor act as a limitation upon Hastings if Contractor abandons the Work. In such event, Contractor shall be liable to Hastings for all losses and damages suffered by Hastings.

The Contractor shall not be held liable for acts of God, war, civil disturbances, or written changes on the project scope from Hastings, which shall cause the Contractor to fail to complete the Work within the specified Contract Time.

ARTICLE 11 - INDEPENDENT CONTRACTOR

It is understood and agreed that Contractor is an independent contractor in the performance of each and every part of this Agreement and that the Contractor's employees shall be subject to its control and shall not be deemed, in fact or in law, to be employees of Hastings. Hastings shall have the right to generally oversee and inspect the performance of the Work of the Contractor to insure the satisfactory completion thereof. However, any oversight or inspection by Hastings will be for the College's sole benefit and will not excuse or release Contractor from its obligation to perform its Work properly and in accordance with the terms of the Agreement. Contractor further agrees and acknowledges that: (a) Contractor's relationship with Hastings is not an employment relationship and is strictly and solely that of independent contractor, and that Contractor is not entitled to any benefits or insurance solely reserved for Hastings' employees, on Hastings account; (b) under no circumstances is Contractor entitled to receive from Hastings any benefits or insurance, including without limitation any unemployment, workers compensation or disability benefits, vacation or sick pay; (c) Contractor is solely responsible for determining the method and means by which Contractor will accomplish the Work and otherwise fulfill Contractor's obligations hereunder; and (d) Contractor will be solely responsible for the professional performance of the Work, and will receive no assistance, direction or control from Hastings, but Hastings shall give Contractor conceptual instructions as to the general nature of the Work to be performed hereunder. Contractor shall be solely responsible for obtaining, at Contractor's expense and in Contractor's name, disability, worker's compensation or other insurance as well as licenses and permits usual or necessary for conducting the Work hereunder. Contractor represents that Contractor has the qualification, skills, and ability to perform the Work in a professional manner, without the advice, control or supervision of Hastings and is licensed to perform such services in the State of California. Nothing contained in this Agreement shall be construed to place the parties in the relationship of partners or joint ventures and neither party shall have any right to obligate or bind the other in any manner. Contractor agrees that it will not hold itself out as an authorized agent with power to bind Hastings in any manner.

ARTICLE 12 – SUBCONTRACTORS

Contractor shall not subcontract any part of the Work to be performed by Contractor hereunder without Hastings prior written consent. Any such subcontract provided by Contractor will require Hastings written Notice to Proceed specific to the services and work required by Hastings. Any such subcontract shall not relieve Contractor of any liability for the full and faithful performance of this Agreement according to its terms and conditions. Hastings shall have the right to condition its approval of any such subcontracting upon satisfactory arrangements for issuance of joint checks payable to Contractor and any subcontracting covering such subcontracted services and/or work. Subcontract agreement forms used by Contractor shall be subject to the approval of Hastings and shall include a provision binding the subcontract to the terms and conditions set forth in this Agreement.

ARTICLE 13 – DEVIATIONS FROM SERVICES

Contractor shall not be entitled to any payment for extra work performed in connection with the Work provided for herein unless such work has been previously authorized in writing by Hastings. Contractor expressly agrees that Hastings may make any alterations Hastings deems proper by adding to, omitting from or deviating from the scope of Work. Contractor shall appraise such alterations in a fair and reasonable manner and advise Hastings of any changes such alterations will have on the amount of Contractor's time, expenses and costs expended in performing the Work as altered. Hastings shall thereafter have the right to approve, modify, or withdraw the alterations. Hastings agrees to pay for any such approved and authorized modified work or services as negotiated and agreed between the parties.

At the request of Hastings, Contractor shall perform additional services not included in the Work ("Additional Services"). Additional Services may only be performed at the request of Hastings and shall not be reimbursable unless evidenced by a written change order duly executed by Hastings. The cost of any Additional Services shall be determined upon further review of the existing scope of work and pricing values submitted by Contractor and as negotiated between both parties.

ARTICLE 14 – WORK PERFORMANCE SCHEDULE

It is understood that time is of the essence of this Agreement, and Contractor is bound by all of the time limits imposed by virtue of this Agreement. Before commencing services, the Contractor shall have prepared and submitted to Hastings for approval a Preliminary Contract Plan and Schedule for performing the Work in the form and within the time limit required by the Specifications. The College Representative(s) will review the Preliminary Contract Schedule with Contractor within the time limit required by the Specifications and in closed coordination with Hastings Representative(s), its consultant, other contractors or subcontractors to obtain the project milestones for completion and updates thereto, which Hastings can provide.

In addition to the Preliminary Contract Plan and Schedule, Contractor shall submit a final contract Project Schedules and any updates or revisions to contract Project Schedules to the Hastings Representative(s), who will determine the acceptability of the contract Project Schedules and any such updates in the form and within the time limits required by the Specifications.

Contractor shall perform and keep current, to the satisfaction of Hastings, a schedule of submittals that is in a form acceptable to Hastings and is made a part of this Agreement, as required by the Specifications.

The Preliminary Contract Plan and Schedule, the Contract Plan and Schedule, and the Updated Contract Plan and Schedule shall meet the following requirements:

1. Must be suitable for monitoring progress of the Work.
2. Must provide necessary data about the timing for Hastings decisions and Hastings furnished items.
3. Must be in sufficient detail to demonstrate adequate planning for the Work.

All materials, equipment, licenses, labor and professional services of any kind necessary for the performance of the Work shall be ordered upon full written acceptance and approval under this Agreement. If Hastings so requests, the Contractor shall submit to Hastings in written form verification that such lead items have been ordered. Contractor shall not be entitled to an extension of time within which to complete the Work if any delay is caused by Contractor's failure to order materials sufficiently.

Hastings review of the form and general content of the Preliminary Contract Plan and Schedule, the Contract Plan and Schedule, and the Updated Contract Plan and Schedule is for the purpose of determining if the above-listed requirements have been satisfied.

Contractor shall plan, develop, supervise, control, and coordinate the performance of the Work so that its progress and the sequence and timing of the Work activities conform to the current accepted Contract Plan and Schedule.

Contractor shall continuously obtain from its subcontractors information and data about the planning for and progress of the Work and the delivery of equipment, shall coordinate and integrate such information and data into updated Contract Plan and Schedules, and shall monitor the progress of the Work and the delivery of equipment.

Contractor shall act as the expeditor of potential and actual delays, interruptions, hindrances, or disruptions for its own forces and those forces of subcontractors, regardless of tier.

Contractor shall cooperate with Hastings and its representative(s) in the development of Contract Plan and Schedule and Updated Contract Plan and Schedules. Hastings acceptance of or its review comments about any schedule or scheduling data shall not relieve Contractor from its sole responsibility to plan for, perform, and complete the Work with the Contract Time. Verbal acceptance or agreement of or review comments about any schedule shall not transfer responsibility for any schedule to Hastings and its representative(s) nor imply their agreement with (1) any assumption upon which such schedule is based or (2) any matter underlying or contained in such schedule.

If a schedule showing the Work completed in less than the Contract Time is approved in writing, Contractor shall not be entitled to extensions of the Contract Time for Excusable Delays or Compensable Delays or to adjustments of the Contract Sum for Compensable Delays until such delays extend the completion of the Work beyond the expiration of the Contract Time. Failure of Hastings Representative(s) to discover errors or omissions in schedules that it has reviewed, or to inform Contractor that Contractor, subcontractors, or others are behind schedule, or to direct or enforce procedures for complying with the Contract Schedule shall not relieve the Contractor from its sole responsibility to perform and complete the Work within the Contract Time and shall not be a cause for an adjustment of the Contract Time or the Contract Sum.

The Work to be performed under this Agreement shall commence upon written authorization to proceed and be substantially completed within the time frame established between Hastings and Contractor. Contractor shall perform the Work in accordance with the current accepted Contract Plan and Schedule.

ARTICLE 15 – CONDEMNATION OF WORK

In its sole and absolute discretion, Hastings has the right to reject any portion of the Work that it determines to be unsound, defective, or otherwise not in accordance with the terms and conditions of the Agreement. However, Hastings shall exercise judgment in evaluating the Work provided by Contractor and the Work produced before rejecting such Work. Contractor shall not be entitled to compensation for any Work that has been rejected.

During the work and/or for a period of one (1) year following the date of final completion of the Work and Acceptance of the System, or any longer period agreed to between Contractor and Hastings, Contractor shall within ten (10) calendar days after receipt of notice from Hastings 1) promptly correct any defective work to Hastings' satisfaction; 2) replace all rejected materials or Work; or 3) replace any other property which is damaged by the correction of said Work. If any of Contractor's representation for Hastings leave Contractor's employ, or otherwise become incapacitated, or if Contractor is otherwise in breach of this **Article 17**, such breach shall be deemed to be a material breach of this Agreement and shall render this Agreement immediately terminable by Hastings in Hastings' sole discretion. A list of Contractor's representation will be contained in a form acceptable to Hastings and is made a part of this Agreement.

Without superseding, limiting or restricting any other representation or warranty set forth herein, or implied by operation of law, Contractor accepts the relationship with Hastings established by the Contract Documents and will cooperate to fulfill its terms; has carefully examined the project sites and to the extent available, adjacent sites and has satisfied itself as to the general and local conditions; has reviewed documentation provided by Hastings; and, affirms that all materials, equipment, labor, and professional services of any kind for the performance of the Work shall be of good quality and that Work will be of good quality, free of defects and will conform with the requirements of the Contract Documents.

Hastings will notify the Contractor, in writing, of the appointment of any replacement representation for Hastings, whether its employee, consultant or contractor, to fulfill the obligation described in this paragraph. Contractor expressly agrees that Hastings' Representative(s) or such other person identified by Hastings pursuant to this **Article 18** are the only persons authorized to provide approvals, instructions or any such communication with respect to Contractor's duties hereunder.

Contractor is to immediately inform Hastings' Primary Representative(s) of any unusual conditions or events that relate to, or may affect the Work to be performed under this Agreement.
