

## **Request for Quotation 01-0039**

### **New Fencing for Bike Enclosure and Other Fencing Needs**

**Due: 12/10/2020**

**Email quotes to: [purchasing@uchastings.edu](mailto:purchasing@uchastings.edu)**

#### **Background:**

The purpose of this RFQ is to enhance security at facilities located at 200 McAllister Street and 333 Golden Gate. UC Hastings Law is located in an area that is highly trafficked and subject to petty crimes as well as break-ins, which have happened repeatedly at the facilities listed below. The bike enclosure has been penetrated multiple times and the gates have been scaled. The bike enclosure has been entered through the fencing while the gates are typically scaled over the top, typically by using the pedestrian handles to achieve height. While security is the paramount concern, it is also important to ensure an aesthetic design, as these facilities are located primarily near or themselves are main campus entrances.

#### **Scope of Work:**

UC Hastings College of Law seeks competitive quotations for a contractor to provide materials and installation to enhance campus security as follows:

- New Bike Enclosure located at 200 McAllister Street, San Francisco, California to replace the existing due to its inability to prevent theft. Pictures of the existing enclosure are

included in Exhibit E #s 1 through 5. The Bike Enclosure can be viewed and measured (by the contractor) from the adjacent public sidewalk and entry way into the building.

- As shown in the associated photos, the gate itself is quite secure but the rest of the enclosure is not secure.
- A solution that reduces visibility – thereby reducing the attraction of the items located inside the enclosure – could prove beneficial.
- Create more secure gates for the loading dock entrance at 200 McAllister Street by modifying the existing gates (pictures of which are included in Exhibit E #s 6, 7 and 8). If modification is not feasible due to security or aesthetic concerns, as a nonpreferred alternative, the College will consider new gates.
- Create more secure gates for the Man Gates (west) at 333 Golden Gate Street (two-leaf entrance) by modifying the existing gates (pictures of which are included in Exhibit E #s 9 and 10). If modification is not feasible due to security or aesthetic concerns, as a nonpreferred alternative, the College will consider new gates.
- Create more secure gates for the Man Gates (east) at 333 Golden Gate Street (four-leaf entrance) by modifying the existing gates (pictures of which are included in Exhibit E #s 11 and 12). If modification is not feasible due to security or aesthetic concerns, as a nonpreferred alternative, the College will consider new gates.
- Create a more secure gate for “Interior Main Gate and Fencing” between 200 McAllister Loading dock and 333 Golden Gate Street, a picture of the current gate and fence is included in Exhibit E #13.

**Requirements:**

Contractor to meet UC Hastings insurance requirements detailed in the sample agreement provided (Exhibit B), and must provide proof of insurance at the time of contract signing.

UC Hastings is a Drug Free Workplace and signing of attached drug free workplace certificate is required (Exhibit C).

Contractor shall provide a minimum of three (3) references for comparable fencing services (Exhibit D). [Complete and return page one for each reference form.]

Contractor shall complete and provide a Prime Contractor & List of Subcontractors (Exhibit F).o
